This game was a big disappointment. I knew I was in for a bad time when I saw Atari in the opening credits. I had opened this game before, but was repeled by Sam's change in voice actor. That was a big part of his character. Months later I decided to give it another chance. Big let down. The animation is garbage. Some HE games had exaggerated lip syncing before, but it was well done and part of the game's style. This however, was poorly made. The character's mouths move in the same 3 positions, or not at all when they speak. The game's environment is poorly laid out. Some areas lead directly to others which makes it hard to get to places. Basically you make big circles around where you're trying to go. Some areas are hard to find becuase they aren't obvious paths. The framerate/loading between each area is trash. It freezes/ buffers. Game took too long to complete and was tedious and not fun. I was groaning every time I had another task added in between of completing one. Characters have no personality and have boring voice acting. Can't skip dialogues anymore either. I couldn't even finish this it was so bad. PJ Sam 2 will always be my all-time favorite. I will never accept this as part of the series. It's the CDi Zelda version of PJ Sam.. This game for me, is the Epitomy of Good games. Great gameplay, Great graphics, Great story, Great community, Great Booty.

If you love immersive pirate experiences, then put down AC4 and play this motherfricker.

Cannot reccomend highly enough. I love this game.. Great take on tower defense genre.. A good, solid bomberman clone. Best played with lots and lots of people all sitting in the same room.. Its an good game its old school herd if you into that then buy it ^^. pretty good. Got this as part of random key giveaway. I still feel like I paid too much... <u>https://youtu.be/pFAKY105y_E</u>

A bare bones 2D platformer that lasts only a few minutes. Animation, SFX and quality level design are all missing leaving this a shell of an idea and game. I loved the original Space Invaders Extreme when it released on the DS. This version does improve the sound and graphics but they changed some of how it plays and also made changes to some of the levels. Still, this is a very fun game. If you have not played it before, I really suggest that you give it a shot. The combination of the gameplay and the integrated music is addicting. A geat innovation on the old classic Space Invaders game play. It is one of the best games Taito released last decade.

The only issue that I really have is that it is now always online, unlike the original portable game. Why? It also does not have the multiplayer mode. Seems weird to add an online requirement but then remove multiplayer. Note: I got the game on sale, not at full price.

Really cool game!. This is a pretty solid game it has lots of options to customize the look and the music is perfect for it. You can unlock wallpapers to use on your desktop by completing the game. The achievements are balanced pretty good and the game is has a hard more which is quite good but if that isn't your thing the normal mode is worthy as well. There are other versions of this game you can purchase. From what it looks like it's just a themed version of the same type of game. There are also bonus games you can unlock by playing the game as well. For the price it is pretty good I managed to catch it on sale which was perfect.. So here's the verdict : I spent 2\$ on this game and I enjoyed it. It was fun, despite some obvious flaws and hilarity.

What this game is not : Serious. A Heretic/Hexen clone.

What to do/expect : To die alot at the hands of laser-blaster wielding psychedelic Bugs Bunnies in a rainbow happy fantasy land. To have gigglefits when your character dies and lets out a horrid scream. To die alot from falling. The game is very forgiving in regards to player death, so its fairly comic and inconsequential.

Things I wish could be better? Some menus, control options. Deathmatch/CTF. Also, the rabbit lasers pretty much run train on you and could do for a mild nerf.

 $I love it. Thank you.. \u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u26656\u2665\u2665\u2665\u2665\u2665\u2665\u26$

the best thing this game can do is milk you.. Love the soundtrack, but want to point out that if you have an Apple Music subscription it's available there too and for free.. There are quite a few things I don't like about this game, but my overall experience was still very positive. They really did a good job with the graphics and audio, and the atmosphere in this game is great, which I think is very important in a point and click adventure. My best memories of adventure games comes from sucking in the incredible atmosphere of brilliantly portrayed locations like Stark in The Longest Journey or the Land of the Dead in Grim Fandango, and I definitely did get a similar experience on several occations in Lost Horizon. That really was the main driving point for me to complete the game, because the puzzles were too easy and rarely interesting, and I don't think the story was especially impressive either. Still, if you are looking for a calmer, more atmospheric experience than what modern QTE adventure games offer, I heartily recommend this game.. Sorry for my impoliteness, but this game needs more improvement indeed, below are issues so far:

1. Gold get disappeared too quicky, if you kill a mob in long range and you won't able to get the gold.

2. Dmg V gold showing incorrectly. eg. Weapon DMG upgraded but showing the old dmg. Gold didn't refresh after transaction.

edit: Recommend this game since developers will listen and work hard for debugging. The game is fun indeed. The slow motion during shooting is a cool impact.. Great little puzzle game. 9/10, a little hard for me.. Please people buy this game!!!

It seems like I am the only one who has this game. I've never seen someone online, so I've never really been able to play it, as it requires other people.

So either the devs need to add a single player gamemode, or you should all buy this so I can finally play it.
